

Godrej Enterprises Group

The safest place for your valuables!

Smart Home Lockers

About us

The pioneering force in India's security sector, Godrej consistently strives to push the envelope, keeping in mind customer needs. Backed by more than a century of unparalleled experience and expertise, Godrej has been at the helm of every breakthrough in the Indian security industry - evolving from a safes manufacturer to a comprehensive provider offering cutting-edge security solutions, powered by state-of-the-art technology driven products and services. Today Godrej exports to more than 55 countries worldwide and offers a wide range of security products that run the gamut from sturdy safes and world-class fire-resistant solutions to advanced vault equipment and resilient strong room doors. Customer convenience is paramount in everything we do; at the heart of our mission lies a dedication to exceeding customer expectation. We believe in delivering solutions that transcend the ordinary, recognizing that it's the unexpected details that truly make a difference. For instance, consider our range of next-gen automated safe deposit lockers, allowing patrons to effortlessly summon their lockers with a simple fingerprint. Our latest innovation - Dual-Mode Home Lockers; Equipped with intuitive voice-based guidance and a built-in alarm system, these lockers redefine home security, providing unparalleled convenience and peace of mind. Our commitment to convenience-driven innovations not only enhances our credibility but also enriches the customer experience. Even as you read this, team Godrej is working behind the scenes to pioneer new ways to harness technology that will go on to shape tomorrow's security products and solutions. While we adapt to the demands of a dynamic world, our dedication to uphold Godrej legacy of superior stellar quality, exemplary service, and unwavering trust remains unchanged.

Choosing the Right Home Locker

Struggling to choose the right safe for your valuables? Let us simplify this critical decision for you.

Ensuring the safety of your valuables requires exploring diverse security solutions, each uniquely crafted to offer specialized levels of strength and protection. At godrej, we prioritize the robustness and durability of every locker. Our meticulous engineering process involves reinforcing vulnerable areas guaranteeing unmatched security. Recognizing the diversity in locker strength and fire resistance is crucial. Therefore, selecting the ideal option that aligns with individual requirements is paramount for effectively safeguarding your valuables.

A spectrum of strengths to protect what matters most

Pro Strength Series 10X Stronger*

Ensures standard strength security for your valuables. While these lockers offer a basic level of Burglary resistant protection, for enhanced security, we strongly recommend our Advanced and Extreme Strength models. With advanced features and reinforced construction, they provide superior protection for your valuables.

Advanced Strength Series 100X Stronger*

Heightened protection for your valuables with innovative single wall reinforcement technology. Each locker features fortified walls, powered by state-of-the-art technology for maximum security, ensuring peace of mind.

Extreme Strength Series 250X Stronger*

Safeguard your precious valuables with confidence and peace of mind with our trusted, strongest, and most secure lockers with double walls and patented construction. The best-in-class unmatched protection for your high value items.

Fire Resistant Series

Protects your vital documents from fire damage. Our safes feature patented in-fill material that enhances fire resistance. This innovative material acts as a barrier against flames and heat, ensuring the safety of your important paperwork. Certified by internationally recognized laboratories like ECB-S (European Certification Body), our safes undergo rigorous testing to ensure compliance with stringent fire safety standards for durations ranging from 60 to 120 minutes. Providing you with peace of mind knowing your documents are securely protected in the event of a fire only.

Note: These are Fire Resistant Safes and only protects paper documents from fire. They are not a burglary resistant safes.

*Reference to strength as 10X, 100X, 250X stronger than a wooden cupboard is based on controlled in-house tests. These images are for representative purposes only.

Choosing the Right Lock

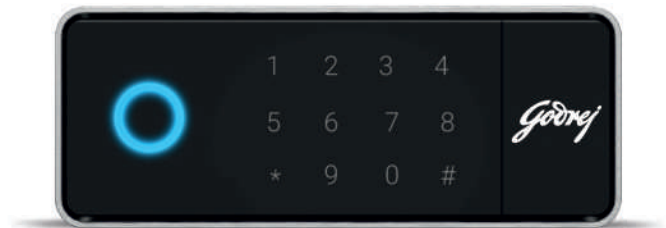

NX ADVANCED Lock

Combining Ultra Key, plus Digital and Biometric features, this lock offers top-notch security. Advanced fingerprint recognition accommodates up to 25 prints and a 4-8 digit user code for foolproof protection. Dual-mode functionality and a built-in I-buzz alarm further enhance security and versatility.

NX PRO Plus Lock

Experience personalized security with this Digital cum Biometric lock. It features a fingerprint recognition system for up to 50 prints and supports 10 user codes, ensuring foolproof security and convenient access. Dual-mode functionality and a built-in I-Buzz alarm enhances versatility and protection.

NX PRO Digital Lock

Ensure robust security in both business and home settings with this Digital lock. It safeguards valuables using a unique 4 to 8 digit user password. Featuring a 6-digit master password provision and non-volatile memory, which retains the password even during battery replacement for uninterrupted protection.

NX PRO Key Lock

Protect your valuables cost-effectively with this secure solution. It includes a nickel-plated corrosion-resistant lock and an advanced key, significantly reducing duplication risks for heightened security.

Fire Resistant

Protects your vital documents from fire damage. Our safes feature patented in-fill material that enhances fire resistance. This innovative material acts as a barrier against flames and heat, ensuring the safety of your important paperwork. Certified by internationally recognized laboratories like ECB-S (European Certification Body), our safes undergo rigorous testing to ensure compliance with stringent fire safety standards for durations ranging from 60 to 120 minutes. Providing you with peace of mind knowing your documents are securely protected in the event of a fire only.

Note: These are Fire Resistant Safes and only protects paper documents from fire. They are not a burglary resistant safes.

The contents and information on the catalogue is for general purposes and is provided on an "as is" basis. The recommendations of level of strength are relative and completely depend on the nature of tools used for any attack. All safes can be broken open given sufficient time, tools, torch (basic or simple home tools), expert skill and access. All warranties, recommendations and representations of any kind are disclaimed, including the implied warranties of merchantability and fitness for a particular use. The company disclaims any claims, losses, demands or damages of any kind whatsoever including but not limited to direct, indirect, incidental, or consequential loss or damages, economic loss, or otherwise arising out of or resulting by reason or in consequence of any breaking open of any safes, video door phones, burglar alarm systems, or any theft, fire, robbery, fraud or other wrongful act done by any party with regard to safes, video door phones, burglar alarm systems. The specifications, prices and features of the product may be subject to change. The categorization of safes into 10X, 100X, and 250X signifies the relative strength and security of each safe compared to a standard wooden cupboard. This categorization is based on controlled in-house testing. We are certified under ISO 9001:2015, ISO 14001:2015, and ISO 45001:2018, demonstrating our commitment to quality, environmental responsibility, and occupational health and safety.
